ARYN WEATHERLY

FULL STACK WEB DEVELOPER

EXECUTIVE SUMMARY

While in school at UTC i worked as a personal trainer.I attended physical therapy, massage therapy and radiology technology school after receiving my bachelors. After feeling unfulfilled with my career in Healthcare and craving more continuous education I researched software development, After attending informational sessions, researching the field and taking a three week intro course, I realized software development was the field for me,

FRONT END CAPSTONE: PASS A NOTE

- One issue every student runs into at one point or another is missing class and having to get lecture notes from a classmate. Pass A Note was created to solve this problem.
- It allows users to upload pictures of class notes or simply record notes into the app itself. It also allows students to keep track of tasks and important dates.
- Users have the ability to follow other users, view and rate their notes as well as leave comments. Notes are organized into individual notebooks for each class.
- React Dropzone and Cloudinary to give users the ability to upload or drag and drop images into their notes.

TECH STACK:
- React
- Javascript
- Bulma
- JSON Server
- Cloudinary
- React-Dropzone
- Adobe XD
- CSS

BACK END CAPSTONE: WEATHERLY DESIGNS

- As a jewelry designer I am always looking for ways to share my designs and ideas with customers and other designers. This application allows me to do just that.
- Users can view all products, gemstone informational pages and tutorials.
- Users can also leave reviews on the tutorial videos and on the product details pages.
- The admin can add, edit, and delete products, product types, tutorials and gemstones.

TECH STACK:
- C#/.NET Core
- Bootstrap
- MVC
- Entity Framework
- SQL
